QIE HACKATHON 2026

Not the best demo. **The best startup launched on QIE.**

A four-month build program that rewards production deployment, real users, and measurable traction — not prototypes. Ship on QIE Mainnet, put it in front of users, and prove it works.

TOTAL PRIZE POOL

\$17,000 USD

BUILD WINDOW

4 months

CATEGORIES

5 tracks

DEPLOYMENT

Mainnet only

01 AUG 2026 — 10 DEC 2026

DEPLOY • LAUNCH • PROVE TRACTION
50% ON WIN • 50% ON 90-DAY MILESTONE

01 TIMELINE

Four months, one mainnet launch

02 PRIZE POOL

\$17,000 across three tiers

TOTAL PRIZE POOL

\$17,000 USD

Grand Prizes \$10,000
Category Winners \$2,500
Special Awards \$4,500

1

1ST PLACE

Grand Champion

\$5,000 USD

2

2ND PLACE

Runner-up

\$3,000 USD

3

3RD PLACE

Third Place

\$2,000 USD

// grand_prizes.subtotal

\$10,000 USD

// Grand prizes, category winners, and special awards are separate pools – a single project may win across more than one.

03

CATEGORY WINNERS

Five tracks that drive real QIE usage

Each category awards **\$500**. Build products that put transactions on-chain — not repeat concepts, and not clones of existing ecosystems.

\$500

TRACK 01

DeFi & Financial Infrastructure

Lending

Savings

Stablecoin payments

Payroll

Remittance

Tokenized assets

Treasury

\$500

TRACK 02

AI + Autonomous Agents

// Not ChatGPT wrappers

Agents that transact

Autonomous wallets

AI commerce

AI marketplaces

\$500

TRACK 03

Consumer Apps & Social

Creator economy

Messaging

Communities

Loyalty

Identity

Monetization

\$500

TRACK 04

Commerce & Real World

Merchant payments

Invoicing

Ticketing

Supply chain

POS

Subscriptions

\$500

TRACK 05

Developer Infrastructure & Tooling

// Benefits the whole ecosystem

SDKs

Wallets

APIs

Analytics

Explorers

Indexing

Security tools

// category_winners.subtotal * 5 * \$500

\$2,500 USD

04

SPECIAL AWARDS

Rewarding traction, community, and new builders

Most Traction

\$2,500

- MEASURED, NOT JUDGED

Awarded on verified, measurable growth — not opinion. Judges verify every metric.

DAU / MAU

Mainnet txns

TVL

Revenue

Paying customers

Merchants

Community Choice

\$1,000

- PUBLIC VOTE

The project the QIE community rallies behind during demo week.

Best Student Team

\$1,000

- STUDENT-LED

The strongest submission from a team of currently enrolled students.

// special_awards.subtotal

\$4,500 USD

Win the prize. Then prove it.

Prizes pay in two phases so builders launch, market, and iterate — instead of grabbing a prize and disappearing.

PHASE 1

50%

of prize

Paid **immediately** after winners are announced

Released on Dec 10, 2026 to every winning team.

NO CONDITIONS

Yours to keep

No milestone required

// Half the prize is unconditional — a real reward for shipping to mainnet.

PHASE 2

50%

of prize

Paid on **traction within 90 days**

Meet any **three** milestones below.

MILESTONE SET · MEET ANY 3

500+ unique wallets

5,000+ transactions

\$25,000 volume

100 returning users

20 merchants

Revenue generation

Active monthly usage

Meaningful GitHub dev

// Milestone unmet → remaining 50% forfeited or rolled into the next hackathon.

Every submission must ship all seven

Deploy on QIE Mainnet

Open-source smart contracts

Live public application

Public repository

Demo video

Documentation

Team presentation

Bonus signals boost ranking →

Original work, built to last

R1 Original Work

Projects must be substantially created during the program. Existing projects may enter only if they add significant new functionality developed during the event.

R2 No Copy Projects

Teams may use open-source libraries and standard smart-contract components. Submissions must not be simple forks, rebrands, or minimally modified versions of existing apps. Judges prioritize original functionality and meaningful development.

R3 AI Usage

AI-assisted development is encouraged. But teams must understand and maintain their code, judges may ask technical questions, and inability to explain the architecture may result in disqualification.

R4 Mainnet Requirement

No testnet-only submissions. Judges verify contracts, transactions, deployment, and frontend connectivity on QIE Mainnet.

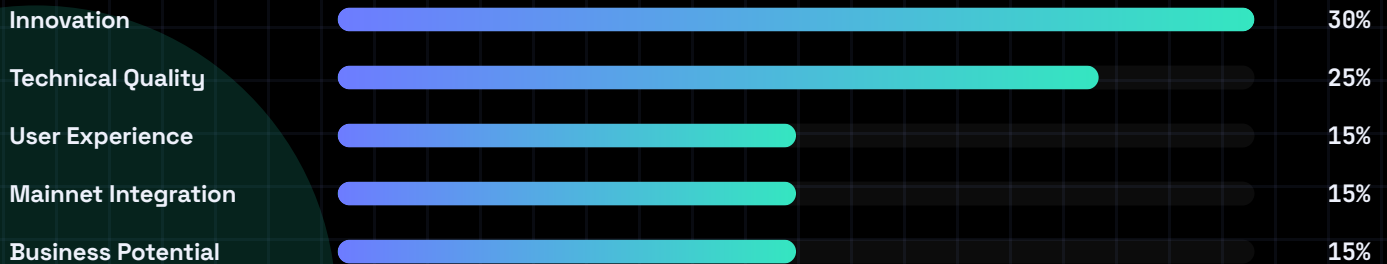

R5 Unique Product

Projects must deliver meaningful innovation. Simple clones, templates, tutorials, or cosmetic modifications are not eligible.

✓ Best practice, not penalty

Building on proven, audited open-source foundations is encouraged. The bar is meaningful new work — not reinventing security-critical primitives.

Weighted scoring

// BONUS CONSIDERATION • DOES NOT CHANGE WEIGHTS

Integrate multiple QIE services

Publish documentation

Open source

Mobile support

Adoption before judging

Ship updates throughout

// REGISTRATION OPENS 01 AUG 2026

Build the company, not the demo.

Deploy on QIE Mainnet. Launch to real users. Prove traction in 90 days. The strongest startups take home their share of \$17,000 — and a running start.
